

AQUAPEARL SMART(28ch)

Fixture include 2 modules:

1. Master
2. Ring

For Hog 4 OS ver. 3.19.0 and later, fixture must be patched by next steps:

Fixture 1: Master

Fixture 1.1: Ring

For Hog 4 OS ver. 4.2.1 and later, please, export 2 modules in the .XML in Fixture Builder ver. 3.x.x. Then in the ver. 4.x.x, export it in the Fixture Builder, then first to add every module as separate fixture and then unite all modules with New Compound Type option to the one fixture as described above.
